

Dear FCC,

I am writing to you today to urge you NOT to repeal net neutrality. Regulations need to remain in order for ALL businesses and people to have an equal chance at being noticed on the internet. By repealing this decision you are setting up a corrupt system where the 1st Amendment is not upheld unless those people have enough money to buy their visibility on the internet.

The world already has SO much income inequality that the internet is the last bastion where people from all levels of society on a global scale have an equal playing field. By taking that away you will have helped amass even more power & influence in the top 1% that can pay massive fees in order to be seen over others who can not pay as much.

Our free speech will be adversely affected and we as customers will be forced to pay more for an inferior product. You will be annihilating small business start-ups, limiting free speech, ensuring that those in lower socioeconomic brackets have compromised accessibility to information, ideas and systems that would otherwise support their prosperity, and rewarding corporations that already have benefited too much by our government's regulating practices.

Please help the millions of people in the US that don't have a voice and don't have the means to afford the looming prices you will be inflicting if you repeal net neutrality. Vote to keep net neutrality as it is.

Best Regards,
Ashley Carlisle
